Dear ESL/EFL colleagues,

I once met a teacher who had recently used one of my texts in her class. At the end of the term, one of her students said to her, “Thank you for teaching me the secrets of English.”

I still smile when I think of that comment. Of course, we know there are no “secrets,” but I think I understand what the student meant—that it’s sometimes helpful to understand what’s going on underneath the surface of a language. A second language can seem so dizzying and random. A little information about its patterns can help students make sense of it and give them a foundation for language growth.

The first book in the Azar series was published in 1981. It was the blue book, *Understanding and Using English Grammar*, which grew out of many years of creating my own materials for my own classes. I then wrote two other texts, the red and the black, creating *The Azar Grammar Series*.

All of the texts have undergone revisions over the years with many evolutionary changes, especially in the use of more interactive and communicative activities. But throughout this time, the original vision remains as stated in the very first book: the goal is the development of all usage skills from a grammar base by giving clear grammar information and employing a variety of practice modes, from controlled response to open communicative interaction.

When I published the first book, I hoped maybe a few other teachers might find the textbook useful, too. In all honesty, I never imagined there were so many teachers like myself who found a grammar-based skills approach to be effective and appropriate for their students. It turns out we are legion.

During the naturalist approach heyday in the 80s and into the 90s, when advocates of zero grammar held sway, grammar instruction largely disappeared from school curricula for native speakers of English. But because of teacher support for grammar-based materials like mine, grammar teaching did not disappear from curricula for second language learners.

Because of you, grammar is today a viable and vigorous component in the ESL/EFL classroom—much to our students’ benefit. A great deal of current research shows that many if not most of our students benefit greatly from a grammar component blended with other approaches in a well-balanced program of second language instruction. Together we have served our students well.

My hat is off to you.

Preface to the Third Edition

Basic English Grammar is a beginning level ESL/EFL developmental skills text in which grammar serves as the springboard for expanding learners' abilities in speaking, writing, listening, and reading. It uses a grammar-based approach integrated with communicative methodologies. Starting from a foundation of understanding form and meaning, students engage in meaningful communication about real actions, real things, and their own real lives in the classroom context.

Teaching grammar is the art of helping students look at how the language works and engaging them in activities that enhance language acquisition in all skill areas. The direct teaching of grammar to academically oriented adults and young adults is one component of a well-balanced program of second language instruction and can, much to students' benefit, be integrated into curricula that are otherwise content/context-based or task-based.

This third edition has the same basic approach as earlier editions, with new material throughout. It has

- student-friendly grammar charts with clear information that is easily understood by beginning students.
- numerous exercises to give students lots of practice.
- more illustrations to help students learn vocabulary, understand contexts, and engage in communicative language tasks.
- reorganized chapters with expanded practice for high-frequency structures.
- the option of a student text with or without an answer key in the back.

In addition, the new edition has a greater variety of practice modes, including

- greatly increased speaking practice through extensive use of interactive pair and group work.
- the addition of numerous listening exercises, accompanied by audio CDs, with listening scripts included in the back of the book.
- more activities that provide real communication opportunities.

A new *Workbook* accompanies the student text to provide additional self-study practice. A *Test Bank* is also available.

HOW TO USE THIS TEXT

GRAMMAR CHARTS

The grammar charts present the target structure by way of example and explanation. Teachers can introduce this material in a variety of ways:

- a. Present the examples in the chart, perhaps highlighting them on the board. Add additional examples, relating them to students' experience as much as possible. For example, when presenting simple present tense, talk about what students do every day: come to school, study English, etc.
- b. Elicit target structures from students by asking questions. (For example, for simple past tense, ask: What did you do last night?) Proceed to selected examples in the chart.
- c. Instead of beginning with a chart, begin with the first exercise after the chart, and as you work through it with students, present the information in the chart or refer to examples in the chart.
- d. Assign a chart for homework; students bring questions to class. This works best with a more advanced class.
- e. Some charts have a preview exercise or pretest. Begin with these, and use them as a guide to decide what areas to focus on. When working through the chart, you can refer to the examples in these exercises.

With all of the above, the explanations on the right side of the chart are most effective when recast by the teacher, not read word for word. Keep the discussion focus on the examples. Students by and large learn from examples and lots of practice, not from explanations. In the charts, the explanations focus attention on what students should be noticing in the examples and the exercises.

FIRST EXERCISE AFTER A CHART

In most cases, this exercise includes an example of each item shown in the chart. Students can do the exercise together as a class, and the teacher can refer to chart examples where necessary. More advanced classes can complete it as homework. The teacher can use this exercise as a guide to see how well students understand the basics of the target structure(s).

SENTENCE PRACTICE

These exercises can be assigned as either oral or written practice, depending on the ability and needs of the class. Many of them can also be done as homework or seatwork.

LET'S TALK

Each "Let's Talk" activity is designated as one of the following: pairwork, small group, class activity, or interview. These exercises encourage students to talk about their ideas, their everyday lives, and the world around them. Examples for each are given so that students can easily transition into the activity, whether it be student- or teacher-led.

LISTENING

Listening exercises for both form and meaning give exposure to and practice with spoken English. Listening scripts for teacher use are in the back of the book. Two audio CDs also accompany the text. Many of the exercises also introduce students to common features of reduced speech.

Teachers may want to play or read aloud some listening scripts one time in their entirety before asking students to write, so they have some familiarity with the overall context. Other exercises can be done sentence by sentence.

WRITING

As students gain confidence in using the target structures, they are encouraged to express their ideas in paragraphs and other writing formats. To help students generate ideas, some of these tasks are combined with “Let’s Talk” activities.

When correcting student writing, teachers may want to focus primarily on the structures taught in the chapter.

REVIEW EXERCISES

All chapters finish with review exercises; some are cumulative reviews that include material from previous chapters, so students can incorporate previous grammar with more recently taught structures.

Each chapter review contains an error-correction exercise. Students can practice their editing skills by correcting errors commonly found in beginning students’ speaking and writing.

ANSWER KEY

The text is available with or without an answer key in the back. If the answer key is used, homework can be corrected as a class or, if appropriate, students can correct it at home and bring questions to class. In some cases, the teacher may want to collect the assignments written on a separate piece of paper, correct them, and then highlight common problems in class.

For more teaching suggestions and supplementary material, please refer to the accompanying *Teacher’s Guide*.

Acknowledgment

Janet Johnston was the finest editor an author could ever hope to work with. Wielding pencils of many colors (with purple seeming to be her personal favorite), she cheerfully held her authors to account for every single word they wrote. She saw the Azar Series through thousands of pages of manuscript and proof for more than fifteen years. Each published page bears the seal of her high standards and keen eye. Her delight in the process of shaping text was contagious and her technical expertise extraordinary, making all of us who worked with her enthusiastically reach for our highest level of professionalism. They simply don't make editors like Janet anymore. Working with her has been a privilege and a joy. As we grieve her untimely death from breast cancer, we will deeply miss her good, sweet friendship as well as her editorial wizardry. Simply stated, Janet Johnston was, and will always remain, the best of the best.

38° C 24° C ✓ 10° C 0° C -18° C

FAHRENHEIT	CELSIUS	DESCRIPTION
1. 50° F	10° C	cool, chilly
2. 32° F		
3. 100° F		
4. 75° F		
5. 0° F		

*humid = hot and wet

□ **EXERCISE 7. Let's talk: small groups.**

Directions: Work in small groups. Read the chart and follow the instructions.

“Approximate” means “close but not exact.” Here is a fast way to get an **approximate** number when you convert from one temperature system to another.*

- To change **Celsius to Fahrenheit**: DOUBLE THE CELSIUS NUMBER AND ADD 30.

Examples: $12^{\circ}\text{C} \times 2 = 24 + 30 = 54^{\circ}\text{F}$. (Exact numbers: $12^{\circ}\text{C} = 53.6^{\circ}\text{F}$.)

$20^{\circ}\text{C} \times 2 = 40 + 30 = 70^{\circ}\text{F}$. (Exact numbers: $20^{\circ}\text{C} = 68^{\circ}\text{F}$.)

$35^{\circ}\text{C} \times 2 = 70 + 30 = 100^{\circ}\text{F}$. (Exact numbers: $35^{\circ}\text{C} = 95^{\circ}\text{F}$.)

- To change **Fahrenheit to Celsius**: SUBTRACT 30 FROM THE FAHRENHEIT NUMBER AND THEN DIVIDE BY 2.

Examples: $60^{\circ}\text{F} - 30 = 30 \div 2 = 15^{\circ}\text{C}$. (Exact numbers: $60^{\circ}\text{F} = 15.6^{\circ}\text{C}$.)

$80^{\circ}\text{F} - 30 = 50 \div 2 = 25^{\circ}\text{C}$. (Exact numbers: $80^{\circ}\text{F} = 26.7^{\circ}\text{C}$.)

$90^{\circ}\text{F} - 30 = 60 \div 2 = 30^{\circ}\text{C}$. (Exact numbers: $90^{\circ}\text{F} = 32.2^{\circ}\text{C}$.)

*To get exact numbers, use these formulas: $C = 5/9 (^{\circ}\text{F} - 32)$ OR $F = 9/5 (^{\circ}\text{C}) + 32$.

Change the following from Celsius to Fahrenheit and Fahrenheit to Celsius. Calculate the **approximate** numbers.

1. $22^{\circ}\text{C} \rightarrow$ $22^{\circ}\text{C} = \text{approximately } 74^{\circ}\text{F} (22^{\circ}\text{C} \times 2 = 44 + 30 = 74^{\circ}\text{F})$

2. $2^{\circ}\text{C} \rightarrow$ _____

3. $30^{\circ}\text{C} \rightarrow$ _____

4. $10^{\circ}\text{C} \rightarrow$ _____

5. $16^{\circ}\text{C} \rightarrow$ _____

6. $45^{\circ}\text{F} \rightarrow$ _____

7. $70^{\circ}\text{F} \rightarrow$ _____

8. $58^{\circ}\text{F} \rightarrow$ _____

9. $100^{\circ}\text{F} \rightarrow$ _____

10. $20^{\circ}\text{F} \rightarrow$ _____

BASIC ENGLISH GRAMMAR with ANSWER KEY Third Edition

Betty Schrampfer Azar

Stacy A. Hagen

Basic English Grammar is a classic developmental skills text for beginning students of English as a second or foreign language.

While keeping the same basic approach and material as in earlier editions, the third edition more fully develops communicative and interactive language-learning activities. Some of the new features are:

- Greatly increased speaking practice through extensive use of pair and group work
- The addition of structure-focused listening exercises throughout
- Audio CDs and listening script in the back of the Student Book
- More activities that provide “real communication” opportunities in the real-time, real-place context of the classroom
- Available with or without Answer Key
- New separate BEG Workbook devoted solely to self-study exercises
